How This Directory Was Compiled

This directory has been compiled based on information within the comprehensive Business Information Agency database. This vast database is updated throughout the year utilizing a variety of methods, including direct mail, fax and phone campaigns, broad Internet research, and our continued dedication to directly contacting industry experts to assure that the Business Information Agency database reflects the most current information available at press time.

ATTENTION:

PlanetInform's directory is an objective source of business information; it is not a trade directory and does not carry advertising. Although every care has been taken during the preparation of this publication, it is possible that omissions or errors have occurred. Human or mechanical errors are also possible when processing the information. The publishers do not accept responsibility for any errors or omissions in this directory.

In furnishing the directory, Business Information Agency, Inc., cannot guarantee the completeness, accuracy, or timeliness of the data contained in this directory or the correctness of information on which it is based. Business Information Agency, Inc., does not accept responsibility for errors or omissions or any consequences arising thereof. Business Information Agency, Inc., in no way assumes any part of the business risk of the user and is not liable for any loss or injury resulting from conditions beyond its control or from negligence. If this directory is used for mailing purposes, there is no refund for undeliverable mail.

Errors, after they have been detected, will be corrected in future editions.

Letter from the Publisher

The international marketplace and its key players are our business. BIA presents 500 unique international business directories and databases, collecting data for 3.2 million key companies across major industries in 60 economic-developed countries in North America, Eastern and Western Europe, and Asia.

In these directories, business users will find the widest variety of data available on the market today. From comprehensive, easy-to-use business directories and handbooks to in-depth analyses and market forecasts, BIA publications explore the most critical spheres of global economics, manufacturing, wholesale and retail, agriculture, finance and insurance, construction, transportation, and service industries.

Our information addresses either macro issues, including important socio-economic indicators, or micro information on specific industries in countries, their growth prospects, and foreign trade activities. Alternatively, our strategic data services concentrate on specific geographic regions and conditions.

Business Directories

If you are in need of superior sources with comprehensive, reliable business information, then PlanetInform Directories are for you. Simply select the geographic location, SIC Code, or product category of interest to locate the appropriate Directory or Database you require. Alphabetical and product indexes within the PlanetInform Directories are available in Print or e-Book format to provide you with a quick and easy way to target new customers.

Market Research Reports

If you are interested in the Russian Market and require details on the region's domestic economic, social and demographic conditions, then our PlanetInform Market Research Reports are the indispensable tools to use to get the information you need. Choose Business Profiles, Market Forecasts or Investor's Handbook and provide your business with unique statistical and marketing information about the Russian and Former Soviet Republic markets.

Online Database

If you are looking to do business quickly and effectively, then our PlanetInform Online Database is the best way to target new customers and establish new business contacts. Select your potential customers from more than 3.2 million companies worldwide by the location, type and size of business and contact them by phone, fax, e-mail or direct mail.

Working in close collaboration with governmental statistical agencies, premier think tanks, and state research institutions of the Former Soviet Republics, BIA has conducted *in-depth* industry- and territory-specific research in diverse areas ranging from the most successful to the smallest industries. We are especially focused on business opportunities in the former Soviet countries and in 69 of Russia's regions and cities. For any business researcher, library, think tank, governmental agency, business, or firm seeking current and accurate economic analysis to evaluate business opportunities and market conditions of the Former Soviet Republics and Russia, we are ready to serve you and meet your needs.

Oleg V. Yuferev, PhD, economics

President, Business Information Agency

Preface

Welcome to the new 2004 edition of *Top Business Partners in Russia*. Compiled by an experienced editorial team, this directory is used by business executives, bankers, investment analysts, and researchers to quickly and easily identify potential customers, trading partners, joint venture prospects, or acquisitions in an increasingly significant market. We hope this directory is a tremendous source to you whether you need it for approaching business partners, sales prospects, telemarketing, and sending direct mail or simply as a general reference.

Main Sources and Research Methods

The entries in this directory are drawn from PlanetInform's database of global company information. All entries have been specially updated for this publication and compiled with the utmost care by an experienced team of researchers and editors. Each organization featured has been individually researched, either by direct contact with the company concerned (by questionnaire, letter or telephone) or by supplemental research through regional media, trade journals, and official business publications, including online sources. Every effort has been made to contact all firms to verify their information, with the exception of the annual sales figures, which are considered confidential by many companies.

The companies in this directory have been selected based on their sales volume and gross income of total assets, as appropriate. All entries have been published free of charge. Because of the fluctuating nature of the business world, companies constantly move in and out of the our top-ranked companies. If you cannot find a particular company, please call us for the information you need.

Key Information Fields Provided by This Business Directory

Contact Details – Company name, address, telephone and fax numbers, and first and last name of the owner or other principal (where available).

Operational Details – Line of business, manufacturing indicator, and SIC codes. This information is essential for a complete business picture of potential customers or suppliers.

Corporate Details - Employee size and sales volume ranges (for most businesses). This information helps with making better informed marketing and purchasing decisions.

Typical Company Entry. The data provided for each company includes, as available, the name of the company, address, domestic and international telephone and fax, email and website, key personnel, principal activities, number of employees, sales volume, public/private status, and the date of establishment.

An Explanation of the Standard Industrial Classification (SIC)

The Standard Industrial Classification (SIC) system used in this directory was developed by the federal government to classify businesses by the type of industry in which they operate and product they produce. The SIC system separates all activities into broad industrial divisions (manufacturing, mining, retail trade, etc.), which are further subdivided by group and specific output. The major manufacturing industry class is given a two-digit code, with the industry subdivision given a three-digit code, and the different industrial products given four-digit codes. Only two-digit and four-digit codes are used in this directory.

For example:

<i>Industry Breakdown</i>	<i>Code</i>	<i>Industry, Product, etc.</i>
<i>*Major Industry Group</i>	<i>20</i>	<i>Food and related products</i>
<i>Industry Group</i>	<i>203</i>	<i>Canned and frozen foods</i>
<i>*Industry</i>	<i>2033</i>	<i>Fruits and vegetables</i>

**Classifications used in this directory.*

We hope this directory is a tremendous tool for you to manage many aspects to your business. Constructive comments or suggestions for stylistic improvements and additional information are welcome. In particular, we are always pleased to hear from companies and associations who wish to be included in *Top Business Partners in Russia*. We appreciate your business.

Finally, we, the publishers and editors, offer our thanks to all those who have contributed to the preparation and completion of this ambitious task.

Ella Lackey
Project Editor
